Frameworks/Libraries:	A-Frame, three.js, React.js

Professional Experience

Lead Web Designer & Developer, 2019   *The Creative Group, Montclair, NJ*

- Ensured design continuity and link validity of the American Society of Mechanical Engineers (ASME) website through their refurbishment period to a new client management system (Kentico); praised for detailed documentation.
- Launched hankandstellas.com through Squarespace, ensured landing page accessibility, setup SEO, utilized industry best design practices to enhance interface usability while providing extensive SquareSpace training.

Web Designer & Developer, 2018   *Web Design & Development Consultant, Edgewater, NJ*

- Collaborated to define project scope, construct prototype, and spearhead the design and development of a client work portfolio on Wix with additional customized HTML elements integrated; client received increased interest at job fair.

Web Developer Intern, 2018   Plumdrop, New York, NY

- Implemented effective layout for consumer products on company website through WordPress interface to enhance user experience and readability and increase the flow of incoming traffic to company website.

Projects

My Portfolio
Technical Scope: React.js, HTML, CSS, Adobe XD
Developed my portfolio in React.js using stateless functional components throughout to ensure DRY Principle; receives and renders appropriate data to screen via class and id hierarchy.

Snowy Potter
Technical Scope: three.js, A-Frame, Glitch
Developed an Augmented Reality snowman in three.js framework, A-Frame, entity-component-system (ECS) architecture with container objects to envelop data containers. Integrated Quick Response (QR) code.

Cryptography
Technical Scope: JavaScript, HTML, CSS
Established an advanced code and cipher system with asynchronous patterns of JavaScript that converts input into code; inspired by the book Code Girls, received positive feedback from the author.

CollegeVibes
Technical Scope: Storyboard, Axure
Conceptualized and developed a social media platform for freshman students that fostered interaction and relationship development across campus at Montclair State University

Education / Training

Bachelor of Science in Computer Science (2018)
Montclair State University, Montclair, NJ

Certifications
Responsive Web Design | FreeCodeCamp
